Our Blue Ridge Mountains

There are a lot of reasons to consider western North Carolina for the rest of your career...and Caldwell as your new personal and professional home.

The views are spectacular; the coffee is piping hot; the community is generous in its support; the golf courses are inviting; the location is central to the mountains and a half-day drive to the beaches of the Atlantic; and the hospital is staffed by a collegial medical staff that needs your services to continue our pace of growth.

Signs of Downtown Revitalization

Welcoming, Family-friendly Community

You won't be a stranger for long in our community. We welcome new-comers with open arms. Our temperate climate means mild winters with a little snow for effect, but also a long gardening season complimented by the changing seasons and their colors. We are within easy access of major metropolitan centers as well as mountain retreat villages and offer a pleasant suburban lifestyle. Our excellent public school system (K-12) plus the community college and technical institute and Appalachian State University make education a valued commodity. The arts and culture are alive and well. Local and touring talent keep us entertained in both grand and down-home comfortable style. The great outdoors are just outside our door. Hiking, biking, kayaking, fly fishing, golf, tennis, skiing, horse-back riding and mountain climbing are just some of the things to keep you busy here.

Community Wellness Emphasis to Eat Smart and Move More

Growing Medical Community:

Caldwell Memorial Hospital is the choice for healthcare in Caldwell County. The Caldwell Physician Network provides the majority of primary care and select specialty care to our market through nine separate practice groups and locations. Our Emergency Department sees about 30,000 visits a year. A team of hospitalists manages inpatient care for the majority of our physicians and provides medical consults and medical management of surgical patients as required.

Notable Equipment and Capabilities:

MRI; CT; Nuclear Medicine; Cardiac Cath Lab; PACS-RIS; Linear Accelerator; PET CT; Digital Mammography; Stereotactic Breast Biopsy; Outpatient Surgery Center; Approved Community Hospital Cancer Program with Commendation by the American College of Surgeons; affiliate of the Wake Forest University Baptist Medical Center Comprehensive Cancer Center with access to the NCI clinical trials; Residency trained & Board-Certified Emergency Medicine physicians; Pain Management Center; Neurology & Memory Center; Rehabilitation Services; Surgery Services in General Surgery, ENT, Orthopedics, Ophthalmology; Ob/Gyn, Urology, Vascular and Endovascular.

The Opportunity:

All seven of our PCP groups are very busy. *Caldwell Physicians* is a network of hospital-managed practices that offers a growth opportunity. The ratio of PCPs to population is low and demand is high. Our experience in hospital-based provider practice management stretches over two decades. The position features the benefits afforded a hospital-employed physician with rewards that recognize individual productivity. The staff and administration of the our practices are well-trained and seasoned. There is a larger than expected group of specialists to serve our community and, in many specialties, we are the referral hospital of choice. If you would like to establish a practice in a community that will be welcoming and be part of a collegial medical staff, this could be right for you!
