There are a lot of reasons to consider western North Carolina for the rest of your career...and Caldwell as your new personal and professional home.

The views are spectacular; the coffee is piping hot; the community is generous in its support; the golf courses are inviting; the location is central to the mountains and a half-day drive to the beaches of the Atlantic; and the hospital is staffed by a collegial medical staff that needs your services as an advanced practice pro to continue our pace of growth.

Welcoming, Family-friendly Community

You won't be a stranger for long in our community. We welcome new-comers with open arms. Our temperate climate means mild winters with a little snow for effect, but also a long gardening season complimented by the changing seasons and their colors. We are within easy access of major metropolitan centers as well as mountain retreat villages and offer a pleasant suburban lifestyle. Our excellent public school system (K-12) plus the community college and technical institute and Appalachian State University make education a valued commodity. The arts and culture are alive and well. Local and touring talent keep us entertained in both grand and down-home comfortable style. The great outdoors are just outside our door. Hiking, biking, kayaking, fly fishing, golf, tennis, skiing, horse-back riding and mountain climbing are just some of the things to keep you busy here.

The position features the benefits afforded a hospital employee with rewards that recognize individual productivity. You will be joining a highly respected team of providers.
